Calbrite Explosion Proof Products

Why consider Calbrite Explosion Proof Products?

- Calbrite offers a wide range of stainless steel explosion proof fittings including the GUAT, GUAX, EYS (Seal-Off), and UNY (Union).
- Calbrite's explosion proof fittings and seal-offs prevent possible explosions throughout conduit systems installed in hazardous areas.
- Calbrite explosion proof fittings are manufactured in 316 stainless and polished with a standard "brite" finish to increase aesthetic appearance and corrosion resistance.
- Calbrite explosion proof fittings are manufactured in the USA and available in 3/4" and 1" trade sizes.
- Calbrite explosion proof fittings provide the highest level of defense against corrosive danger and destruction.
- All items are suitable for use in Class I Division 1 Groups A,B,C and D; Class II Division 1 Groups E,F and G; and Class III Hazardous Locations UL 1203 / CSA 22.2 Listed and NEC Compliant.

Stainless Steel Explosion Proof Products

Stainless Steel Explosion Proof GUAT and GUAX

Calbrite's stainless steel GUAT and GUAX conduit outlet boxes are designed for use in hazardous areas and harsh environments to protect conductors in stainless steel conduit, act as pull and splice boxes, join and connect conduit and/or other conduit fittings, allow for changes in conduit direction and easy access to conductors for maintenance and future system changes or upgrades.

GUAT Explosion Proof Outlet Box	
Trade Size	Part Number
3/4"	S60700GUAT
1"	S61000GUAT

GUAX Explosion Proof Outlet Box	
Trade Size	Part Number
3/4"	S60700GUAX
1"	S61000GUAX

Stainless Steel Explosion Proof UNY

Calbrite's stainless steel UNY unions are used in hazardous areas to join and connect conduit and/or other conduit fittings. The design allows for simplified installations by eliminating disassembly of the conduit or fittings.

UNY Explosion Proof Union	
Trade Size	Part Number
3/4"	S60700UNY0
1"	S61000UNY0

Stainless Steel Explosion Proof EYS

Calbrite's stainless steel EYS (Seal-Off) fittings are designed for use in hazardous areas and harsh environments for both horizontal and vertical installations. These fittings are used to prevent possible explosions by restricting the passage of vapors and gases throughout the conduit system.

EYS Explosion Proof Sealing Fitting	
Trade Size	Part Number
3/4"	S60700EYS0
