

Stainless Steel Wall Mount Food Grade Channel

Features:

- Manufactured in heavy-duty 12 gauge type 304 stainless steel
- Polished to a bright, easily maintainable finish that is modern, attractive, easy to clean, and that also enhances the surface's resistance to pitting & bacterial corrosion
- May be installed vertically or horizontally
- Available in multiple pre-cut lengths

Applications:

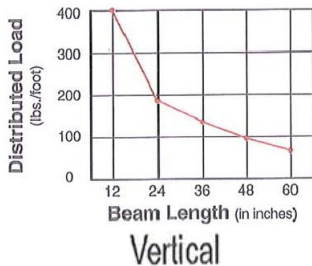

The Calbrite system of metal framing is based on the use of a continuous slotted channel, and a series of brackets and fittings, which can be fastened to it at any point. With Calbrite channel and components, racks, supports for conduit, wiring, and electrical equipment, machine frames, and a limitless variety of structures can be built rapidly, simply, and economically. Food Grade Channel is designed specifically for wash-down applications or damp environments, to prevent contaminants or bacteria build-up.

Industries Commonly Served:

- Food & Beverage Production & Distribution
- Chemical Plants
- Water & Wastewater Treatment
- Pharmaceuticals & Cosmetics
- Refining & Extraction Sites
- Petrochemical
- Pulp & Paper Mills
- Marine & Coastal Facilities
- Along with other corrosive environments
